

PRECISION COOLING CABINET - 2K

SRK PCC SERIES

These self-contained air-conditioned wall mounted cabinets are an efficient *Precision Cooling* system ideal for use in remote “edge” locations and inhospitable operating environments that don’t have cooling infrastructure already in place. These made from stainless-steel ideal for outdoor locations that experience bandwidth limitations, latency issues, or unpredictable network disruptions. These cabinets - with air conditioners mounted on the side - protect the delicate electronics inside from moisture heat, dirt, and tampering.

Part Number (Includes AC Unit)	Rack Units	Overall Dimensions H x W x D in. (mm)	Weight Capacity*	Air Conditioner BTU (W)	Volts VAC
PCC12U-2428-2KBTU-SS	12U	21.00" x 33.80" x 28.00" (533 x 857 x 711)	200 lbs. (91 kg.)	2,000 BTU (600 W)	115 V
PCC19U-2428-2KBTU-SS	19U	33.25" x 33.80" x 28.00" (845 x 857 x 711)	200 lbs. (91 kg.)	2,000 BTU (600 W)	115 V

CABINET FEATURES

- 12U or 19U rack space with 19" EIA reversible rails.
- 200 lbs. *Dependent on secure mounting into proper structure.
- 28" overall depth, 16" usable depth.
- Fully gasketed, locking, front and swing-out section.
- Stainless steel construction provides NEMA 4X Rating.
- Remote monitoring capability.
- Compatible with 2,000 BTU AC units.
- Cooling capacity approximately 600 W.

AC FEATURES

- Designed to mount on the side of the enclosure.
- 115V / 2,000 BTU.
- Digital temperature controller with alarm.
- Built-in condensate evaporator.
- Efficient, quiet, long lasting rotary compressor.
- Environmentally friendly HFC refrigerant.
- Easy pull-out filter.
- UL Listed.

CONSIDERATIONS

- What are the cooling needs of the equipment that will be housed in the wall mounted cabinet?
- What is the height and width of the smallest door or elevator on the path to installation?
- What is the size of the area where the wall mounted cabinet will be located? Be aware of hallways and traffic flow to ensure safe passage.
- Is there a dedicated receptacle -on the wall- capable of handling the power needs of an AC unit? The best practice would be the receptacle is internal to the enclosure to ensure no power interruptions.
- For retrofit jobs; the condition of the existing equipment, the type of rack it is currently housed in, and most importantly the length of service loop, if any, of the existing cable?

PRECISION COOLING CABINET - 12K

AIR CONDITIONER SPECIFICATIONS

These air conditioning units are designed for high efficiency and high performance heat management of electronic enclosures or equipment. Operating temperature range [-40° to 131°F] [-40°C to 55°C]

Nominal Capacity	Voltage Input (VAC)	MCA (Amps)	H x W x D in. (mm)	AC Weight lbs. (kg.)
2,000 BTU	115	5.1	26.4" x 10.4" x 10.0" (670 x 264 x 254)	36.8 lbs. (16.7 kg.)
